Conflict Minerals Policy

Visionaire, Inc. places a great importance on safety, health, the environment, and the ethical treatment and protection of people. The Dodd-Frank Wall Street reform and Consumer Protection Act (H.R.4173) (“Act”) signed into U.S. Law on July 21, 2010, requires the SEC to establish rules requiring disclosure and reporting procedures on the purchase and use of materials from conflict regions of the Democratic Republic of the Congo (DRC) and surrounding countries. As a privately held company, Visionaire, Inc. is not subject to the Conflict Minerals reporting requirements but as a manufacturer of products that contain 3TG’s (Tantalum, Tin, Tungsten and Gold) Visionaire is adamant and committed to operating in a responsible way by supporting this Act. Visionaire, Inc. pledges to not knowingly procure material supplies and components that contain minerals in which directly or indirectly benefit armed groups in the DRC and/or surrounding countries.
